PROJECTS

SAFE 2 SAVE

- The main aim of the project is to develop an IoT based hardware product related to driver & passenger's safety. Our proposed system will detect driver's drowsiness and gives in form of alarm.

Wiki Page Ranking using Hadoop

- The proposed wiki page ranking with HADOOP project system focuses on creating best page ranking algorithm for wikipedia articles using HADOOP.

Joyride (Shared micromobility) (05/2022 - Present)

- Shared micro-mobility is the shared use of a vehicle, bicycle, or scooter. It is an innovative transportation strategy that grants users short-term access to a transportation on need basis.
- A range of lightweight vehicles traveling below 15mph (25 km/h). They are liability-free rides for the user, in many cases there is no need for a license or insurance.
